That interview, said Mr. Gorman, softened the hard places for those who were trying to harmonize differences. It did much to aid the Democrats in the senate in getting together. He did not believe that the Democrats would ever have gotten together had it not been for that interview. The secretary of the treasury necessarily spoke in great measure for the president in matters relating to his department. On the morning following the publication of that interview, the papers announced that the president was in accord with his great secretary of the treasury. If that was not true, then the forty-two Democratic senators on this side of the chamber had

been misled. As a compromise, Mr. Gorman asserted that the bill as completed was satisfactory to not a single, solitary man in all its details, but as whole, the struc-

Stop and Think.

Did you ever think of the strange consequences of events in this world, by which results of the most momentous importance often follow upon the most trifling causes?

Has it ever occurred to you that so small an action as the purchase of a copy of the "Book of the Builders" may be the birth of the whole life-movement in the direction of higher knowledge, broader culture, and richer appreciation of the beauties of art?

This is an opportunity which may never occur again in your lifetime. The small expenditure of one cent (and a fraction) per day will secure you this greatest volume of the year. Do not hesitate.

Decide it today! Hear the strong arguments calling to you; -an Encyclopedia of the World's Progress,—a chronicle of the Greatest Mechanical Enterprise ever attempted by man,—the greatest autobiography of human effort ever given to the world,-and finally the greatest collection ever made in this country of the Original Work of American Artists.

Whereas default has been made in the conditions of a certain mortgage which was duly executed and delivered by N. Frederic Hugo and Annie W. Hugo, his wife, and William F. Marwin (a single man), mortgagore, to Mary R. Henion, mortgagee, bearing date the twelfth (12th) day of June, A. D. 1890, and with a power of sale in case of such default therein contained, duly recorded in the office of the register of deeds in and for the county of St. Louis and state of Minnesota, on the twenty-eighth (28th) day of June, A. D. 1890, at eight (8) o'clock a. m., in Book 36 of mortgages, on page 213, said mortgage, and said principal note thereby secured, containing a provision that should default be made in any of the payments in said mortgage mentioned, whether of the above described note, or of the interest thereou, when the same should become due, and should such default continue for the space of thirty days, the whole principal sum thereby secured. thirty days, the whole principal sum the thirty days, the whole principal sum thereby secured and all accrued interest thereon, should immediately become, and be due and payable, at the option of said mortgagee;

And whereas default was made in the payment of the semi-annual installment of interest upon said note and mortgage, due June 12, 1894, without grace, and of the interest coupon note given for the same, amounting to the sum of sixteen dollars, the payment of which was secured by said mortgage, and such default has continued for more than thirty days after the same became payable, by reason whereof the said mortgage has elected to exercise her said option, and has heretofore duly declared, and does hereby declare, the whole principal sum secured by said note and mortgage, with all accured interest thereon to be now due and payable;

able:
And whereas there is therefore claimed to be due, and there is actually due, upon said mortgage debt, at the date of this notice, the sum of four hundred nineteen and 52-100 (\$119.52) dollars, principal, interest and exchange and twenty-five dollars attorneys' fees stipulated for in said mortgage in case of foreclosure thereof:

thereof;
And whereas no action or proceeding at law or otherwise has been instituted to recover the debt secured by said mortgage, or any part thereof;
Now therefore, notice is hereby given, that by virtue of the said power of sale contained in said mortgage, which has become operative by reason of the default above mentioned, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and covered by said mortgage, viz:

sale of the premises described in and covered by said mortgage, viz:

All that tract or parcel of land lying and being in St. Louis County, state of Minnesota, described as follows, to-wit:

All of lots numbered two hundred fifty-four (254) and two hundred fifty-six (256) St. Louis avenue, Lower Duluth, according to the accepted and recorded plat thereof on file of record in the office of the register of deeds in and for the said St. Louis County; which said premises, with the hereditaments and appurtenances, will be sold at public auction to the highest bidder for cash, to pay said debt and interest, and the taxes (if any) on said premises, and twenty-five dollars, attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; which sale will be made by the sheriff of said St. Louis County, at the front door of the court house, in the city of Duluth in said county and state, on the twenty-ninth (29th) day of August, A. D. 1894, at 10 o clock a. m. of that day, subject to redemption at any time within one year from the day of sale, as proyided by law.

Law and Order.

In its last issue the Railway Age urges the organization of protective associations, similar to the General Managers' Association of Chicago, not only among the railway companies in other parts of the country, but among all large commercial and industrial interests. The

Railway Age says: "The example of the General Managers' association is one by which the railways all over the country should profit and not the railways alone, but all

flood of lawlessness against which it | One Price and that Right spent its violence in vain. * * * The spirit of insurrection—the determination, sooner or later, to coerce society by violence to accede to its demand-which inspires certain elements in some of the labor organizations, is not confined to those organizations in Chicago. The forces of lawlessness are banded together all over the country. And all 1.50 over the country the railways should likewise be united in resistance, and not the railways alone but all large interests, not only primarily for their own protection but also for the defense of society, and for the stability of the government." The Herald dissents entirely from the conclusions of the Railway Age. It does

not believe that the forces of lawlessness are banded together all over the country, nor does it believe that it is that the railways be united in resistance. The lawless element, which made itself manifest in burning cars and acts of violence at Chicago recently, was a detriment to the cause of the railway men who were striking, and no people were more strongly opposed to such methods than were the strikers themselves. In speaking of the strikers, The Herald refers to them as a body. No CKICAGO, July 23. 8:30 a. m. Weather condi-tions and forecasts: Except showers today their ranks and possibly among the

Our Country and Our Neighbors. This beautiful publication by John L. Stoddard, the famous American traveler and lecturer, is now issued in sixteen parts, each part containing sixteen magnificent half-tone engravings 8 by 11 inches in size, from photographs of notable structures, busy street scenes, and wonderful views of nature's architecture in the Americas. The Great Northern railway has secured an edition of this art work from the publishers, and will furnish it to friends and patrons at the mere cost of handling. The parts will be delivered weekly at 10 cents each, and purchasers can have the privilege of buying a copy of Graham's celebrated steel plate view of Niagara Falls at one-tenth the regular retail price, of that famous production. City Ticket Agent W. S. Whitten, 432 West Superior street, has a framed copy of the Niagara picture hanging in his office, and also has a supply of Part I of "Our Country" and he asks everybody to come and see them. There is certainly nothing more instructive than to read a graphic description of some noted building, monument, street, city, cataract or mountain, particularly when the scene is pictured as faithfully and grandly as sun and art can do it. This work is an art treasury, and only needs to be seen to be appreciated. Every patriotic citizen is strengthened in his admiration and love of country by a perusal of this book.

Since that time, the world has been reaching the conclusion that a means of guaging the civilization of a people is the state of their cookery, and now a great deal of attention is paid to gastronomic science. Cooking schools have been established in the cities, many of our public ward in the cities, many of our public ward schools give cooking lessons two or three times a week, while this year the Minnesota school of agriculture holds a summer school of dairying and cooking for women. What we eat has become of importance, and how it is to be cooked is a question not to be disregarded. Always leaders in the improvement and advanced incident to civilization, the railroad companies took the initiative, and, by the establishment of veritable hotels on wheels, rescued the traveler from the lunch counter and the railway eating house, the Scylla and traveler from the lunch counter and the railway eating house, the Scylla and Charybdis of travel, between which one's digestion was almost sure to be wrecked. Serious Charges. SOUTH ENID, O. T., July 24.- John C Moore, mayor, has created a sensation by issuing a public statement over his own signature and as he states, after a thorough investigation regarding the shooting at Enid of Corporal Gleaves.

Mayor Moore states that the soldier was shot during a quarrel with a comrade and that to protect themselves the soldiers told their officers they were attacked by citizens of Enid. Capt. Mackay, who is in command of the troops, it is charged by Mayor Moore, took a squad of men to Charles L. Shearer's house, pulled him out of bed, accused him of complicity in the shooting and after placing a rope about his neck, threatened to hang him if he did not tell

them who fired the shot. Next the soldiers went to A. R. Elliott's home, awoke him with their guns aimed at him, demanded to know who had burned the bridges, threatening to shoot and hang him if he did not give them the desired information. Elliott's wife, finding the soldiers, as she thought, about to murder her husband, rushed through the streets in her night clothes, calling on the citizens to come to the rescue. and her screams alarmed the soldiers so Enid, whence they sent their prisoner to

ROCHES POINT, Southampton, July 24.-The American yacht Vigilant won today in her twelfth 50-mile race with the prince of Wales' yacht Britannia. The advantage was with the winning boat The wind was fresher than has prevailed during any of the preceding

eleven contests between these boats and at the first markboat, a distance of 5½ miles, the Vigilant led by 38 seconds which had been increased to 2m 203 when the first round was finished. In the first leg of the second round the Britannia gained 12 seconds, but complet-ing the round the Vigilant was 3m 19s ahead. From this time on the Vigilant gained steadily, beginning the harbor distance from Roches Point to the club house, a short distance up the river m 45s ahead.

In the last round of the race the Bri-tannia pushed hard for the lead and cut down the Vigilant's advantage nearly a half a minute. The latter won by 4 m 32 sec without counting time allowance, and by 3 m 22 sec if the estimated time allowance which she gives the Britannia is deducted. The score now stands nine to three in favor of the Britagnia.

Cotton For Senator.

The Midway News, published in the Midway district between St. Paul and Minneapolis suggests that in the senatorial fight to succeed Washburn, "Duluth might come forward with Cotton." The News adds: "Cotton is a his thrilling oratory could scarcely cope with Gen. Washburn's money. Outside of these three cities there is not a man who could command the support of his own county. Hennepin is solid for Washburn; Ramsey already has one senator, and our dozen or more candidates are forced by necessity to bide their time; St. Louis has Cotton. Unless the other districts in the state should take it in their heads to bring forward somebody, there is little doubt but what conversation with anyone, he must the combination between Hennepin and speak first. Either the colonel is very Ramsey will carry Mr. Washburn through in spite of Cotton.'

The Herald is not aware that Mr. Cotton has senatorial aspirations or that St. Louis county intends to bring forward any candidate for the senatorship in succession to Mr. Washburn. Both the present senators, however, live in the Twin Cities, and it is about time the rest of the state was recognized in the distriall the ability in Minnesota is not concentrated in St. Paul and Minneapolis.

Mr. Cotton made a good record in the legislature and evidently impressed the other members with the ability which his friends here know that he possesses. While it is improbable he will be a candidate for the senator to succeed Mr. Washburn next winter, he is a young man whose chances will not be diminished by waiting. At present he is out of active political life, but will undoubtedly be heard from in future years.

The Chinese-Japanese War.

It was thought for a time that a peaceful settlement of the Corean question would be made. The British, Russian and American governments tendered their good offices towards reaching an amicable settlement of the difficulties which had arisen between Corea and Japan and in which China had also become involved through regarding Corea as virtually under its protection, To- to earn enough money to keep their day's dispatches show that the attempt to secure a peaceful settlement has failed it takes pretty hard hustling to do that and that war has actually begun. An engagement between a Japanese cruiser and a Chinese transport, in which the

are bombarding the Corean ports. Ordinarily a war between China and Japan would not be likely to seriously affect the world, but there is grave danger that it may lead to serious complications between England and Russia. There is even a possibility that it may precipitate the long-expected European war, into which nearly every European nation would undoubtedly be drawn. England, Russia and France have many interests in Asia and the ramifications of their intrigues and designs to extend their control are yearly increasing the points of possible hostile contact.

From this point of view the war between China and Japan becomes of a serious nature. With the large standing armies lying idle at great expense in almost every European country and the discontent of the people at the heavy taxation caused thereby, it would take very little to cause any one of the European governments to seize a pretext for assuming a belligerent attitude.

The Tillman State Dispensaries. A dispatch from South Carolina states that Governor Tillman has issued directions that the state dispensaries be again opened for business on Aug. 1. Northern Pacific Bridge Burned. The bridge over the Amnicon river at Amnicon, 22 miles from Duluth, on the Ashland line of the Northern Pacific, was totally destroyed by forest fires at 5 o'clock last evening. The fire was discovered by the Ashland train yesterday afternoon, and it was obliged to run back to Superior.

The bridge is a combination one-span truss, 127 feet long and 30 feet high.

Besides the bridge proper probably 25 feet of trestle work was burned. The coast trestle part is about 500 feet long.
Superintendent Wilsey, of the Northern Pacific, went to the scene immediately, and work on a temporary struc-ture was commenced. It will probably be finished by Thursday or Friday so as to allow the passage of trains.

Although there was a good deal of reinsurance sold in San Francisco, if slie were never to turn up, the loss on her were to turn up, the loss on her would not amount to over \$5000 in all. If she should come sailing into port the gains would be enormous. The reason of this is that no one would take the risk until a big percentage had been offered and most of the insurance was bought for 50 per cent and upwards.

Opinion as to the vessel's safety is pretty well divided, some of the most experienced shipping men basing their judgment on the weather which prevails at this time of the year. THE PITCHERS POUNDED. The League Teams' Strike that Calls Them

Eleven seems to be the charmed number baseball this year. It is the ne plus ultra of straight victories beyond which no National League club has succeeded in going, though three of the 12 have run the limit. First the Brooklyns made "11 straight," the record for the season, and the Cincinnatis tied them with another chain of 11 victories. But the Baltimores cut short Comiskey's ambition to beat the Brooklyns' record and left the result a

Next came the New Yorks, with a string of 11 linked triumphs, and they, too, fell down in the twelfth attempt. Thus was made the remarkable showing of three clubs in close order scoring 11 "hand running wins" each. To the New Yorks, however, must be given the palm, because every one of their 11 games was won on fereign fields, whereas the Cincinnatis and Brooklyns scored nearly all their points at home. If I am not mistaken, the New Yorks' record is a new one for the Nation. al league and stands alone. No other League club, so far as my memory goes, has won 11 consecutive games on the road. To accomplish that task is indeed a remarkable triumph when it is remembered that the traveling team is compelled to face all the disadvantages of which I spoke on a former occasion. Two years ago the Philadelphia team won 16 "straight" games, but the record was made for the

most part on their own diamond. This remarkable spurt of the New Yorks has not been what is known as a "fluke." It was the result of excellent team work, unusual harmony among the players, carefulness in personal habits, and, last, but not least, the fine effective pitching of the cluh's corps of "twirlers." While the pitchers of every other League team were taking their respective doses of bat salivation the New York pitchers were alternat-

ing, with steady, telling work. teams were on a "strike" of vigorous pro- uttes when I was about to start up. In- morning when tonnage was offered at portions, and pitchers were being "called out" of the diamond by their captains with painful regularity. The peerless

A letter from Dan Mahoney received this morning said the crew had to "fire" the new shell as it was pulling to pieces.

The shell used by the Gaudaur four at the regatta here was presented by the Lurlines for the race and is a daisy, the boys pulled over the course a couple of days ago and made it in something better than 8:40. Mahoney says "the Peyton boys are out of sight," and adds that if they had twenty pounds more weight the received as monkeys go. He's an inveterate thief, however, and he has no time for pug dogs; in fact he doesn't like any of the dogs except 'Curly.' Pat steals a great deal of fruit on a parade. He will watch the fruit stores and swoop down on them when the proprietor isn't looking and quick as a flash he will return with ban-anas or apples under his arms. > The fat man was gloating over a particularly realistic description of an ice floe which was three miles long and a mile wide, and no one knows how many miles deep He had announced his intention of emigrating to Greenland and settling there, when the train drew into Little Falls and stopped. A couple of small boys stood on the platform crying: "Strawberries! Nice, fresh strawberries!" They had a few boxes of luscious fruit covered over with fresh green leaves, and the fat man made a bolt for the platform and bought a quart. The other people in the smoking room followed his example. They found that the berries were as nice as they looked and that the price was 15 cents a box. Five men bought a box each and turned them over to the porter of the buffet car, telling him to serve them as

and learn. Uncle Dave Hennion of Sussex county needed water for his stock and began to sink a well. The soil of his paternal acres was hard and dry, and the job proved a long and tedious one. He had at last struck water, and the well was ready to line, when, alas, it caved in, with a crash, and the labor of a week was brought to nought. For a few minutes Hennion stood in mute despair. Then he had an inspiration. He teck off his coat and bat and laid them on e brink of the ruined well. This done, he hid himself in a neighboring haystack and awaited developments.

It was not long before a neighbor passed by. Seeing the collapsed sides of the well and the coat and cap, he not unnaturally concluded that the luckless Hennion had been caught in the collapse and was lying buried beneath the fallen earth. He ran to call assistance, and soon the whole countryside had gathered at the spot, and half a dozen sturdy hands were digging frantically at the well, eager to rescue the unfortunate victim of the catastrophe or at least to restore his corpse to his bereaved family. It was early in the morning when they began. Toward night A. M. Palmer for his stock company, but | the work was done. terday morning has been attended with thun-derstorms and light showers in the Canadian provinces and very light scattered showers in the Northwest states and over Lake Superior.

Duluth temperature at 7 a. m. today, 57 degrees; maximum yesterday, 65 degrees; minimum yesterday, 54 degrees; rainfall, .04 inch.

JAMES KENEALY, Local Forecast Official.

Chicago, July 25, 8:30 a. m—Weather conditions and forecast: On the lakes: Storm southeast signals are flying at all lake ports in anticipation of brisk southeast winds and thunder showers during the next twenty-four hours. The barometer is abnormally low west of the Mississippi with the center of lowest pressure in the Dakotas. Thunder showers are probable today and tomorrow in Kansas, Nebraska, the Dakotas, the states bordering on the Mississippi river north of Cairo and in Michigan, followed by much cooler weather in the regions named, and slightly warmer weather will prevail.

The Contest in Illinois.

The Illinois Republican state convention failed to place in nomination a candidate for United States senator. An attempt to make such a nomination failed, the resolution being laid on the table after numerous speeches and a great uproar. This action was a setback for ex-Congressman "Billy" Mason who aspires to the seat now occupied by Senator Cullom. The Democratic convention recently selected Franklin Mac-Veagh, of Chicago, as the senatorial candidate of that party, and as he proposes to stump the state and challenged any Republican candidate to meet him in debate, Mr. Mason contended that the Republicans should select at this convention a candidate to meet him.

Mr. Mason was quite willing to be that candidate, and he appears to have had a very strong following in the convention, but not sufficiently strong to carry the resolution in favor of nominating a senatorial candidate. The chief obstacle to the success of this resolution was the fact that many counties instructed their delegates against such a course. They had taken this action many weeks ago, and hence it was held that, in view of the Democrats having nominated a candidate, these instructions should not be considered binding on them. The delegates, however, do not appear to have taken this view of the matter. The decision of the convention will please Senator Cullom. It will give him a longer time to repair his fences, which have been thrown down by Mr. Mason in many sections of the state, and he would rather leave the decision of the senatorial contest to the legislature than to the people direct. Senator Cullom's chief title to fame rests upon his resemblance to the martyr president, Abraham Lincoln, but he has little of the ability that distinguished President Lincoin.

There is no date. doubt that his candidacy is giving Shelby M. Cullom much anxiety. Mr. Mason is of relating, and he can make more call out the troops. friends in an hour than Mr. Cullom could in a year. For this reason he preferred to have the convention settle the question, instead of leaving it to a Republican legislative caucus. But with the advantage which the Democrats have gained by gerrymandering the state, the next legislature may be Democratic and both Mr. Mason and Mr. Cullom be lest at home. In this event, Franklin Mac-Veagh would be the next senator from Illinois.

China and Japan. The news from Corea is so meager that it is not known yet whether hostilities have actually broken out between China and Japan. It is said at the legations of these two countries in London that the opinion is gaining ground that war will be averted, for the present at least. Oa the other hand it was announced in dispatches from Shanghai two days ago that war had been declared and a Chinese transport had been sunk by a Japanese cruiser, while a dispatch yesterday reported that a battle between the Chinese and Japanese troops in Corea

is imminent. The cause of the present trouble is not COMFORT definitely known yet either in this country or in Europe, but it is suspected that IN IT. the difficulty grew out of the recent activity of Japan in forcing Corea to adopt a number of reforms unfavorable to the Chinese. Japan's interests in Corea are much greater than those of China and on this account Japan has been enabled to outstrip her rival in Seoul. The retellion in the interior, which at one

Of the result of such a war there can
be little doubt China would triumph in
the end, although the struggle might be
a long one. In naval strength the two
nations are nearly on an equality. The Chinese navy consists of thirty vessels, Cutcago, July 26, 8:30 a. m - Weather condi- but many of these are small and obso-

The Japanese navy consists of thirtytwo vessels of all kinds, including five armored ships-the Fu Soo, Hi Yei, Kon | Washburn's friends in Minneapolis and Go, Rio Jo and Tschiyoda. These range in tonnage from 1500 to 3700 tons and they should put on their heavy weight armed with Krupp guns lighter than the fighting garments without further waste Chinese battleships carry. There are of time and face the music. fourteen cruisers of good size and well armed with Krupp and Canet guns, seven gun vessels of small tonnage, French rifles, and a half dozen corvettes of human life. and a new training ship.

But this balance of resources does not extend to the army, in which China has an enormous advantage in numerical strength. In times of peace China's army numbers 300,000 to Japan's 73,000, but on a war footing the Chinese strength is 1,000,000 men, while the Japanese forces under like conditions number only 230,000 troops with 29,500 mounted police. However, the Japanese forces are well drilled and under officers who have studied in France and Germany.

Mayor Pingree, of Detroit, who aspires to be governor of Michigan, tried to give his boom an extra impetus recently by an attempt to secure arbitration of the Pullman strike by the mayors of the leading cities. Now his enemies are recalling the fact that some years ago there was a strike in Pingree's shoe factory at Detroit, and in response to a request for arbitration the firm issued the notice that "whatever the loss is we prefer that rather than allow outside parties to 'run our business.'"

Evans-Wilson Wedding.

Dr. Warren Wilson and Miss Ruby M. Evans were married last evening at 2711 West Second street, the ceremony being performed by Rev. E. S. Pilling, of Minneapolis, a former Duluth minister. The Wedding took place in Dr. and Mrs. Wilson's newly furnished home. The bride was attired in a white dress trimmed with Irish point embroidery and wore white and pink roses. George McKay acted as best man and Miss Grace Lowe, wearing a becoming Swiss muslin trimmed with Valenciennes, acted as bridesmaid. A reception was held after the every bottle and offers to refund the money to any customer who is not satisfied after using it. Mr. Nelson takes no risk in doing this, because the remedy is a certain cure for the diseases for which is methoded, and he knows it. It is for sale by all druggists.

An interesting proof of the heredlty of skill is to be found in the case of Miss Lizzie Utsehig of San Francisco, who has only been handling a rifle four months and yet who is probably the best rifle shot of her sex in California. "I suppose it is natural that I should know how to handle a rifle," she said when asked concerning her accomplishment by The Examiner. "We all shoot.

Miss Utschig achieved distinction as the best markswoman in California at a recent monthly shoot of the Ladies' California Schuetzen club by making a score of 20, 20, 23, 24, 25, a total of 112 out of a possible 125, and winning the club's medal for June. The range was 200 yards at a 12 inch target, with a dead 'center no big-

ger than a dollar and almost invisible through the sights. She won the medal at the May shoot also, scoring 21, 20, 25, 19, 24, a total of 109. The medal for April was won by Mrs. J. Utschig, Miss Utschig's mother, with a score of 20, 21, 25, 25, 19, a total of 110. Miss Utschig is pretty, petite and only 20 years of age. John Utschig, the father of Lizzie, is accounted the best shot in California. Not long ago he secred 25, 25, 25, 25, 24 in a three shot pool. In the first pool he made three centers, and in the next pool he scored 25, 24, 24. These are two of the best pools on record at 200 vards range.

Four years ago he made a tour of European cities with a picked team of California marksmen and brought back a dozen valuable prizes won in international contests in Berlin, Vicona, Bremen and Geneva.

It is not improbable that a project to pleaded guilty and was given a sus- luth will take form. Several Duluth and some outside parties have the idea in view and believe it would pay. The rumoi was that the Dunn property on the Lake avenue slip would be the site but this is not correct. The St. Paul & Duluth track which runs through the property is not a union track and the t impossible for an elevator to pay. The steel elevator is something new.

It is claimed to be much cheaper and safer from fire than the old style and wheat can be kept in it for years when it is pneumatically sealed. The wheat s pumped into it and out again by air gerous summer illness.

The Dunn property will undoubtedly be improved, probably next spring although the nature of the building to be put up is not published.

COWARDLY JULY.

Strikes Down the Precious Babics-Fatal Cases of Cholera Infantum Terminate Inside a Few Hours-May be Prevented by the Use of Lactated

The big plants, with their roots deep in the earth, grow strong when the July sun beats down on them, but the flowers droop fierce heat.

Babies and young children scel the disastrous effects of heat more than others.

But physicians positively declare that where the strength is carefully kept up, and every possibility of contagion re-moved by using "a splendid nutriment" as doctors call lactated food, the mere presence of high temperature can do no harm. For, at the bottom, cholera inlantum is the result of a condition of things that follows improper feeding. During hot weather the slightest signs of indigestion or diarrhoea should receive immediate attention, and be met by a close scrutiny of the diet. Babies and young children who do not eat with relish, who are weak and debilitated, "pick up" marvelously when they, are put on a diet of lactated food even for a switching charges are such as to make few weeks. N. Y. Neurological Society, Meeting April 4, 1893:

"A case was presented of locomotor ataxia "which had been treated with hypodermic injections of CEREBRINE. Six years ago the "patient, a man aged forty, had begun to suffer "with double vision. This, after several months "of treatment, had disappeared, and for a time "he had been quite well. The typical symptoms "of locomotor ataxia then came on; complete "loss of knee-jerks; sharp pains in the legs; "ataxic gait well marked; inability to stand "with the eyes closed; difficulty in evacuating "the bladder and bowels; sexual power lost; a "sense of constriction around the waist. Treatment was begun about ten weeks ago, and consisted of a daily hypodermic injection of "CEREBRINE (Hammond) five drops, combined with a like amount of water. Improvement very marked; sexual functions perfectly "restored; complete control over bladder and bowels, and sharp pains had disappeared; general health improved; able to run up and "down stairs, and could stand steady with his "eyes closed. No other treatment employed. "Improvement gradual and steady." N. Y. Neurological Society, Meeting April 4, 1893:

F. B. Ross. Northern Passenger Agent. Our Country and Our Neighbors. This beautiful publication by John L. Stoddard, the famous American traveler and lecturer, is now issued in sixteen parts, each part containing sixteen magnificent half-tone engravings 8 by 11 inches in size, from photographs of notable structures, busy street scenes, and wonderiul views of nature's architecture in the Americas. The Great Northern railway has secured an edition of this art work from the publishers, and will furnish it to friends and patrons at the mere cost of handling. The parts will be delivered weekly at 10 cents each, and purchasers can have the privilege of buying a copy of Graham's celebrated steel plate view of Niagara Falls at one-tenth the regular retail price of that famous production. City Ticket Agent W. S. Whitten, 432 West Superior street, has a framed copy of the Niagara picture hanging in his office, and also has a supply of Part I of "Our Country" and he asks everybody to come and see them. There is certainly nothing more instructive than to read a graphic description of some noted building, monument, street, city, cataract or mountain, particularly when the scene is pictured as faithfully and grandly as sun and art can do it. This work is an art treasury, and only needs to be seen to be appreciated. Every patriotic citizen is strengthened in his admiration and love of country by a perusal of this book.

William Gibbons Threw a Stone at Assailants With Disastrous Consequences. Last night William Gibbons, a non-

union man, visited the Shamrock saloon

at the West End about 11:30 o'clock and bought a glass of beer. As he was leaving the place he spoke to a man, who replied "don't speak to me, you d—d scab," and followed up his remark with a terrific punch in Gibbons' face. Then the assailant's relatives and friends pitched on to Gibbons and he was severely beaten and thrown out. Gibbons picked up a stone and threw it at his assailants but the stone went through a \$65 plate glass window instead. Gibbons was arrested for malicious destruction of property and will be tried this afternoon

His assailants are well known and will probably be arrested as soon as the case

s disposed of.

All day yesterday the flames surrounded the village. Hundreds of men battled with the fire, but without success. The pine forests were as dry as parchment, and the flames leaped from tree to tree with such rapidity that the air seemed on fire. The baking soil sent up a gas that ignited and the atmosphere itself seemed to blaze.

R. C. Kruschke, of the City gun store, has invented many things, electric clocks, cash registers, tools and sporting in the River and Harbor Rill goods, but his latest is a hunting knife that is a good one and useful every-where. It is the usual kind of a buck horn handled knife built on the dagger plan, but the back of the blade is made into a file that will sharpen fish hooks in Good Prospect for Maj. Baldwin's Bill for good shape. The knife opens by pressing a spring and is locked when open and locked when closed. It can be carried in the pocket or hung to the belt and it is the safest knife made to carry in the woods where falls are to be expected. Mr. Kruschke has patented his knife and has had a quantity made for him in Germany.

Last June Dick Crawford brought his 12-months-old child, suffering from infantile diarrhoea, to me. It had been weaned at 4 months old and being sickly everything ran through it like water through a sieve. I gave it the usual treatment in such cases but without benefit. The child kept growing thin-ner until it weighed but little more than when born, or perhaps ten pounds. I then started the father giving Chamberlain's Colic, Cholera and Diarrhea Remedy. Before one bottle of the 25 cent size had been used, a marked improvement was seen and its continued use cured the child. Its weakness and puny constitution disappeared and its father and myself believe the child's life was saved by this remedy. J. T. Marlow, M. D., Tamaroa, Ill. For sale by all druggists.

Our Country and Our Neighbors.
This beautiful publication by John L. Stoddard, the tamous American traveler | ment. and lecturer, is now issued in sixteen parts, each part containing sixteen magnificent half-tone engravings 8 by 11 inches in size, from photographs of notable structures, busy street scenes, and wonderful views of nature's architecture in the Americas. The Great Northern railway has secured an edition of this art work from the publishers, and will furnish it to friends and patrons at the mere cost of handling. The parts will be delivered weekly at 10 cents each, and purchasers can have the privilege of buying a copy of Graham's celebrated steel plate view of Niagara Falls at one-tenth the regular retail price of that famous production. City Ticket Agent W. S. Whitten, 432 West Superior street, has a framed copy of the Niagara picture hanging in his office, and also has a supply of Part I of "Our Country" and he asks everybody to come and see them. There is certainly nothing more instructive than to read a graphic description of some noted building, monument, street, city, cataract or mountain, particularly when the scene is pictured as faithfully and grandly as sun and artcan do it. This work is an art treasury, and only needs to be seen to be appreciated. perusal of this book.

Construction of Theater Stages.

The stage construction and machinery of a majority of theaters are antiquated, and the system followed from time immemorial is susceptible of much improvement.

A novel plan of stage construction was offered and seriously entertained for the new Paris Opera House. This was to divide the whole stage into small platforms, each supported on pistons moving up and down in hydraulic presses. A lever put in motion by the stage manager would thus elevate or depress any section of the stage to the height or depth required.

This system, which was rejected by the Paris Opera House because the space blow the stage was lost, being filled with pumps and apparatus, and was actually adopted at the new Vaudeville, but never a few the stage was lost, being filled with pumps and apparatus, and was actually adopted at the new Vaudeville, but never a few the stage on sists in reducing the risk of fire by substituting simple iron construction, iron supports and iron machinery for the innumerable wooden traps under the stage.

Plundering of Railroads.

Isaac L. Rice, the eminent railroad lawyer, in an able article in the Forum Railroad Properties," says that our pres- to their goal. ent policy (of railroad management) having disastrously failed, and it being imperative to adopt a new one, it is never theless imperative, on account the new policy shall not involve such radical changes as to give rise to new and unsuspected problems. It is imperative that the policy to be adopted, stitutions, so that the evils we know may not be followed by others-perhaps still worse-we know not of. It should tend only to destroy the dangerous excrescences which have grown up contrary

to the spirit of our constitution. The object, Mr. Rice contends, should be only to give practical effect to the trust relations which ought to exist between directors and security-holders, and which must exist in order that we may establish justice and promote the common welfare. The first step in the inauguration of this policy has been taken by the introduction in congress of a bill entitled "A Bill to Regulate Railroad 332 men marry women younger than Companies Engaged in Interstate Commerce." The bill proceeds on five lines,

as follows: 1. Restraint upon the commission of those wrongs proved to be most common and most destructive of the welfare of railroad companies, by placing the stig-

ma of crime upon them. 2. Regulation of railroad elections so as to make them free and honest, in order that the sense of trust and responsibility for the management of those companies may be reawakened and kept

permanently active. 3. Assimilation of the management of railroad properties by receivers to that of directors, so as to relieve the United States circuit courts from the cares of the business management of those properties to the extent that these cares are foreign to the administration of justice.

4. Establishment of a method of publicity of corporate affairs, acts of the directors, and business results, under governmental supervision.

5. Initiative on the part of the public prosecuting authorities in respect to crimes committed in contravention of the provisions of the bill.

Under the present policy, security bolders are lest defenceless and the result has been a serious impairment of confidence in our railroad securities and injury to the credit of our railroads. So it has come to pass that in our country, gress by acclamation shows that he is rapidly growing in population, where for not without honor in his own country. should have the credit of government those who ridicule him. securities, railroads having an aggregate capitalization of \$2,500,000,000 out of a Rice says with much truth that the ques- to the second alternative. tion of averting further disasters and of again restoring confidence in our railroad system is truly one second to none in national importance.

Duluth Men at the Head.

Chicago is to have a big marine band, one that will be a credit to the city and may become as famous as the aggregation of players over whom Sousa used to wield his baton in Washington. At least that is the promise made. The new band will be identified with, although not a part of, the First battalion, Illinois naval militia, for its members, half a hundred of them, will be quartered on the battleship Illinois, soon to be anchored at the foot of Van Buren street. They will give their first concert early in September, it is thought, and thereafter will be seen and heard regularly in Chicago, although expecting to

THE FINAL LESSON. What Labor Should Learn From the Great Railway Strike.

The two most startling and impressive phases of this increased power of aggregated capital are shown in the eagerness of political and military masters to serve it without questioning the merits of its claims to protection and in the blind following it receives from the daily press. The powers that be displayed unusual and unjustifiable haste in employing the military powers of the government for the purpose of aiding the corporations in their avowed object of crushing the American Railway union. The intelligent man who calmly reflects upon the events of early July will find himself puzzled to understand how it came about that the interstat : commerce law, which was passed at the demands of an outraged people for relief from the lawlessness, tyranny and avarice of the railway corporations, was employed by the attorney general and his associates in government for the support of these same corporations when engaged in a tyrannical warfare upon the lawful organization of the

conformity with the "spirit of our institutions," then surely it is time to inquire if we had not better remodel those institutions, employ new interpreters or rewrite and radically amend the Declaration of Independence.

If it be suggested that in crises such as we have just passed through the government could not inquire into the equities or ethics of the controversy, but must act at once for the maintenance of law and order, then it is time we had a little statesmanship at Washington. Any pudding head could order out the soldiery to shoot rioters or supposed rioters. It may be added that when the military posses were ordered to Chicago they were not required to maintain order; that the governor of the state, the mayor of the city and thousands of its best citizens testified to that effect. On the Fourth of July, President Olson. E. A. Malone from while we of the east were reading press Minneapolis, was introduced to the bulletins depicting scenes of rioting and meeting by Mr. Paterson. These truths being recognized, it is only necessary to know what the I do not pretend that there were no position of the paper is to determine an "ad." I am going to mention one The Chicago Times was absolutely fair from the start. It told the truth without fear or favor, and its editorial treatment of the subject took the side of justice and genuine law and order. It did not deal in buncombe about "anarchistic strikers," "misguided followers" and "self constituted leaders drunken with power." but while declaring that the cause of the strikers was just and the aims of the American Railway union clearly within the law that paper would not condone the offense of violence to property or persons.

As a result of the course pursued by The Times there were in Chicago and vicinity ten times as many friends of the strikers among those who had no direct concern in the strike as there were of those similarly positioned in the other large cities of the country, and yet the burdens consequent upon the strike fell heaviest upon the people of that community. It is a pleasure to be able to record that the Chicago Times gained in circulation during the strike more than an average of 2,000 daily. With the exception of The Times and The Newscago dailies was so infamons that it stirred the indignation of the newsboys up to the pitch that about 1,000 of these "eminently just and equally unneces- little merchants refused to handle any sary," but to get at its real purpose and but the two papers mentioned. The personality of Nebraska's junior senator, William V. Allen, "a man who never saw New York," is described by Albert Shaw in the July number of the Review of Reviews. Dr. Shaw regards Senator Allen as a typical home-grown, self-reliant American, the product of our Mississippi valley life. His sketch of the senator's history and character is sympathetic and vivid. It is based on a personal interview, the details of which, as presented in the Review, throw many side-lights on the present Populist position at Washington.

Great Difference

In quality between Royal Baking Powder and every other mixture offered as a substitute for it.

Royal Baking Powder is made from pure grape cream of tartar. Contains no alum, lime, nor ammonia; leaves absolutely no acid or alkali in the food. Royal Baking Powder acts upon the dough to make the food peculiarly light, sweet, moist and tender.

Royal Baking Powder contains the maximum of leavening strength, 160 cubic inches of leavening gas per ounce of powder.

The official analysis by the United States Government does not show any other baking powder to possess these qualities.
